

Flexible Shaft Machine – 6 – 12mm Cable, 5 – 20m Length, with Rack

Reliable & Durable

The Flexible Shaft Machine is a lightweight, high-speed drain cleaning and descaling system, designed for professional use in pipe maintenance and renovation. Powered by any standard cordless drill, it allows efficient milling, unblocking, and internal pipe cleaning with flexible shafts ranging from 6mm to 12mm in diameter and lengths of 5m to 20m.

Equipped with a durable nylon-sheathed flexible shaft, this system eliminates the need for lubrication and ensures smooth rotation inside the pipe.

The ETV system effectively removes lime, rust, roots, and other hard deposits inside pipes. With a wide range of chain knockers, brushes, and cutting heads available, distributors can easily customize the setup to match specific job requirements.

Features

Fit Pipes:

6mm: DN 32 – 65 mm (1/4" – 2.5")

8mm: DN 32 – 125 mm (1/4" – 5")
