Purpose of Design

A standard snake camera's tube is flexible and soft, so sometimes it is hard for an user to inspect a place that there is no good support for the tube, because the tube will be bended and inspection job won't be finished quickly.

With the 1m telescopic pole, this camera can do a lot of jobs more conveniently and quickly.

Specifications:

Sensor Type	1/4" CMOS
Image Resolution	720p(1280x720)
Lens	Auto/manual focus
Viewing angle	Horizontal:44°, Vertical:27°
Focal length	F=4.5mm
Wireless Range	up to 20m(in line of sight)
Charging Time	60 min fast charge
Battery Capacity	650 mAh
Battery Type	lithium polymer
Charge Voltage	DC 5V
Non-contact Voltage Detector Sen-sor Range	50V-1000V AC(Approx)
Charge Port	USB Type C
Dimensions(W x D x H mm)	30.8mmX85mm
Weight(Main Body)	62g

Parts for a kit

- 1.SmartCam-Wireless Smart Inspection Camera
- 2.Type C Charging Cable
- 3.Iron Hook
- 4.Gooseneck
- 5.Carry Case
- 6.1m Telescopic Stick
- 7.Adaptors
- 8.Hexagon Wrench

IP67 Waterproof

This camera (when back cap is screwed) is IP67 waterproofed, it can be used underwater.
